RFIs

Q.1: We noticed that there wasn't any spec for the machine, only the literature. There are many different configurations and options to the S20. From a choice of fuel source such as gasoline, propane, or diesel, to many different safety features.

A.1: The unit is to be gasoline powered and no additional features are to be quoted beyond what was specified.

Q.2: Section 4 of the specifications states "No alternatives will be accepted." Why?

A.2: The selected unit was chosen after my research deemed it fit all our requirements. - Fleet Manager S. Bush.
